### Our April Lily

After a long winter, lilies will bloom all over the world. Our April Lily blossomed in the year 1981. Lilly's may seem like a God send when they emerge, and they are.

She came into our lives for a reason, season, and a life time. She gave us shade when our bodies began to desiccate in the sun, and she always considered the needs of others before her own.

She was wonderful just like the blooming scent and fragrance of a lily, and rich in heart like a spoonful of chocolate ice-cream that makes you crave for more. She had a super-sized heart just like a Taco Bell meal, which you never can get enough of in our big family.

Lilies are a beautiful sight just like our dear Mona. The beauty of her smile is dawned on a painting familiar to us all. Mona was caring and giving just as the Lilies' bloom continues to give, and give.

She warmed our hearts as deeply as the sun shines over Texas in August. She was witty, and funny like the sun that keeps shining, and shining.

Lilly's never toil, or spin, and our love for Mona will also never turn. So, thank you Mona-Lisa for being in our lives! You will always be our beautiful April Lily.

“ *I will miss you dearly. I loved you like a daughter. Your excitement around the holidays pleased me me so much. You were so beautiful but you didn't believe me just Luke Suzonne. You both frustrate me. Why you two don't think your pretty is beyond me. I'd be sad and seeing your smile made me smile. I will never forget you. You will always be in my heart. You are free now. You are in God's hands and he loves you. Say hi to my Mom. She will love you as I do.*

“ Mona was a beautiful person through and through. She touched many people's lives in such amazing ways. She was so caring and thoughtful and she will be missed more than anyone will ever know. My thoughts and prayers are with her family at home who will miss her dearly, and with her family at UHC who will never forget the person she was and the beauty she brought to anyone who had the good fortune of meeting her.
